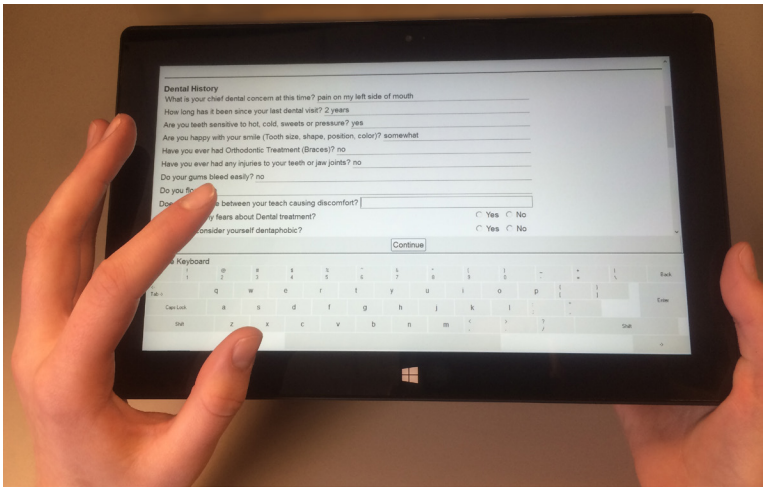
DentiMax, Inc. Creates Self Check-In System for Patients

Practices can now reduce time, cost, paper, and info errors in as simplified process



Mesa, AZ, April 4, 2014 - DentiMax® has released the Patient Registration System, reducing time, cost, paper, and informational errors in the DentiMax Practice Management System.

With this simplified process, the patient enters their own information directly into a tablet computer. The front desk staff can review this patient information to assure its completeness and accuracy and then automatically load the patient information into the practice management software.

DentiMax Co-founder Lee Varney explains, “With this new self-check-in system, the office staff will spend less typing and more time interacting with patients.”

About DentiMax

Founded in February 2004, DentiMax, Inc. offers complete cloud and in-office dental practice management software as well as digital imaging software with x-ray sensors. The company consistently exceeds customer expectations by providing easy-to-use products and services at an exceptional value.
