## **DentiMax, Inc. Introduces Second Generation Digital Sensors**

The latest sensors utilize the latest CMOS technology and more

**Mesa, AZ, April 1, 2009** - DentiMax introduces new second generation sensors. The new sensors utilize the latest CMOS technology, providing crystal clear images with amazing diagnostic clarity.

The easy-to-use imaging software bridges to virtually all practice management systems including Dentrix, SoftDent, PracticeWorks and Eaglesoft. And, at just \$9,999 for the complete sensor kit, dental offices are free to adopt digital x-ray capability at a fraction of what practices have paid in the past.

### **About DentiMax**

Founded in February 2004, DentiMax, Inc. offers complete cloud and in-office dental practice management software as well as digital imaging software with x-ray sensors. The company consistently exceeds customer expectations by providing easy-to-use products and services at an exceptional value.
